Solomon Asch Conformity Experiment:

Correction; The question is which line is most like the reference line, NOT which line is shortest as I miss-stated in the interview: <https://www.simplypsychology.org/asch-conformity.html>

Assumptions

Mass formation is a very useful mechanism for a group to deal with a rapidly emergent threat but becomes malignant and out of control if it goes on for too long or the group is too big to maintain existing social bonds.

In the Malignant Phase the Following Occurs:

A type of hypnosis grows where the hypnotist is also hypnotised, this added degree of separation or derivative allows the masses to become willing to cross their moral boundaries. (Atypical in normal hypnosis).

Extrapolations

Totalitarian cascades from mass formation always catch populations out with its exponential escalation.

If people are saying two things at the same time.

- 1.) I can't believe we are doing this" &
- 2.) "there is no way we would ever do that"

then we are now in a Totalitarian Cascade.

Totalitarian cascades are unique to the 20th and 21st Centuries.

Colonialism then imperialism then totalitarianism as the destructive edges of human group thinks devolve further into bureaucracy over time.

Reminders for the Alerted:

- Unify the alerted to expand the narrative and inoculate against mass formation with solidarity and meaning, making social bonds beyond ritual.
- Keep talking publicly, never go underground. Expansive voices usually do not have the power to wake up the masses due to collaboration on the narrative promulgation and censorship/de-platforming, but they do help to make sure the hypnosis is less deep and may prevent the masses committing atrocities.

Solutions for the Masses:

- Turn off the TV and the radio. 30 min of narrative per day is enough to keep people transfixed.
- Loving, sincere, compassionate, rational, respectful dialogue to all.
- Gentle and sophisticated humour that naturalises the authority of those that are disseminating the singular narrative.
- Understand we are all vulnerable to committing atrocities and use the opportunity to evolve as a human and a species.
- Meta conversations like these help to illuminate the unconscious and reveal it to consciousness.
- Fight for the middle ground - recognise our shared humanity and drawing people together for that cause.
- Super-humanise each other - even the 5% that are manipulating or taking advantage.
- Connect around common ground.
- Display all sides of the story – create a safe space for all to contribute. The truly hypnotised, the resistance, the alerted, the opportunists and the manipulators, a safe space for all to speak.
- Build parallel structures, islands of common-sense pragmatism, candour & forgiveness. Living, breathing examples of something different.
- Remember your own butterfly effect: https://en.wikipedia.org/wiki/Butterfly_effect

Solutions for the Leadership:

As for the masses, plus

- Be the first to speak up and out.
- Make sure NZ never signs up to a global accord on Covid-19 policy as this increases the population size and increases the degrees of separation and so inflames the mass formation.

Solutions for the 5% Opportunistic Manipulators:

The manipulators of the narrative are usually convinced that their ideal will take society to a kind of paradise and this permits them to spread narratives that they don't hold themselves for a utilitarian ethic.

E.g. the trans-humanism thinking that tech will solve all of our problems when actually it created the precursors of isolation and frustration.

Step up and back at the same time and, with courage, ask for forgiveness.

In Peace and War: A Civilian Soldier's Story

<https://www.bookdepository.com/Peace-War-Haddon-Donald/9780958252164>

*Bonus Important Pfizer Clanger

Brilliant peer review and meta analysis work from the **Canadian Covid Care Alliance**; an in depth look at the BMJ whistleblower article and the NEJM Pfizer trials that green-lit the global inoculation rollouts.

This is the analysis that Dr. Robert Malone (inventor of the mRNA technology) shared in his interview with Joe Rogan that likely caused Twitter to de-platform him on New Years Eve 2021:

- <https://www.canadiancovidcarealliance.org/media-resources/the-pfizer-inoculations-for-covid-19-more-harm-than-good-2/>
- <https://www.canadiancovidcarealliance.org/wp-content/uploads/2021/12/The-COVID-19-Inoculations-More-Harm-Than-Good-REV-Dec-16-2021.pdf>

"You can never solve a problem with the same kind of thinking that caused it" - Einstein

"It is not for nothing that our age cries out for the redeemer personality, for the one who can emancipate themselves from the grip of the collective [psychosis] and save at least his own soul, who lights a beacon of hope for others, proclaiming that here is at least one being who has succeeded in extricating themselves from the fatal identity with the group psyche."

- Carl Jung. Civilisation in Transition
